Dr. Harmon McAllister
Research Director
The Council for Tobacco Research
900 Third Ave.
New York, N.Y.

Dear Dr. McAllister:

Thank you for your recent support of our Jan/Feb--1991 Keystone Symposium at Big Sky entitled the "Molecular Basis of Oxidative Damage by Leukocytes." Positive comments continue to reach my office from participants and those who heard of our meeting. The organizers continue to remain grateful for your financial support. Without your backing the meeting would not have been the success that it was.

Shortly, you will be receiving a copy of the July issue of the **New Biologist** in which a summary of our meeting has been published. I've also enclosed a reprint of this article which I just received. You will also be receiving **one complimentary** copy of the meeting's Proceedings volume which is due to be published in late 1991. This volume will have summaries of most of the oral presentations and posters. As the editor of the volume, I can assure you it will contain interesting novel information quite representative of the Symposium. If you want **additional copies**, please fill out the attached voucher and return it to me. I will make sure that CRC Press will send you them at an approximate cost of $40-50 US per copy.

Thank you again for your interest, support, and participation.

Sincerely,

Algirdas J. Jesaitis, Ph.D.
Professor
Organizer MSU/Big Sky Symposium
